#### A FEW FRIENDS.

Temperature Gem.—This is the name of a beautiful little monthly, published at Elmira, N. Y., FANNY ROBERT, Editor. Price 25¢ per year. Miss Russer is now in our city for the purpose of canvassing for subscribers. Her cause is a worthy one, and we shall look for a large patronage from our citizens.

It is scarcely two years since the issue of the first No. of the Gem, and it has already a circulation of 5,000, which speaks favorably for the success of this lady in her enterprise.

The Union School House is progressing finely, and will be pushed forward with vigor. When it is finished, it will be one of the finest edifices in the city. It is situated in a pleasant place, and will show good advantage.

The storm came up on Monday with great sublimity. Mountains and promontories seemed piled up in wild confusion to toppling heights beyond the reach of vision, the onward march of the storm heralded by pealing thunder and lurid lightning. There is no scene the traveller's eye can boast possessing more of grandeur, majesty or sublimity, and yet one of these midsummer storms, and the great exhibition is brought within the gale of the first No. of the Gem, and it has already a circulation of 5,000, which speaks favorably for the success of this lady in her enterprise.

The Miners are for him.—The Lake Superior Journal, of the 25th, has just heard of the nomination of Fremant, and is in ecstacies. The miners of Lake Superior will help swell his 90,000 majority in Michigan.

The Louisville Courier says the wife of a well known drayman in Covington, died one day last week. The next day the bereaved man married a new wife, and took her with him to his dead wife's funeral.

Skinning Casualty.—A man named Thompson was convicted at the Columbus, N. C. Superior Court, of manslaughter, and branded. He was convicted of having, by cruel neglect, starved two small children, who had been entrusted to his keeping by the wardens of the poor of Columbus county.

A Horatio Dean—James P. Williams, of New Brunswick, N. J., was found dead in the car on the train, which left Philadelphia for Pittsburgh. When about 2 hours from Philadelphia his head was observed hanging out of the window, and blood running from it. It is supposed it came in contact with a water tank, or cars standing on the track. The wife and child of the deceased were sleeping on the same seat with him at the time of the accident.

Burlings and Brooks.

The notorious coward Brooks challenged Burlingame to a duel, and was accepted. Place, near the Niagara Falls; time, last Saturday at noon; distance, fifty paces; weapons, western rifles. This looked rather dangerous and accordingly, as was anticipated, Brooks backed out; alleging as an apology that he would be in danger of being mobbed, should he attempt to pass through the Northern States. We'll probably hear but little more of this cowardly ruffian bravado at Washington.

Shannon Removed.

This miserable drunken villain has at last been removed, after he had by his dauberous become incompetent to do further mischief, and John W. Gray, of Pa., appointed in his place. What Geography may do, it is not possible to conjecture.

Fox in the Woods.—The drought, in some sections, is so severe as to parch up everything, and rodents even the woods flammable. The Buffalo Advertiser says that fires are raging quite extensively in the woods on the south side of the track of the New York Central Railroad, between that city and Batavia, for the distance of twelve miles. Much damage had been done to fences, fields and gardens, and considerable wood work destroyed—in other localities fires are reported. Farmers and woodmen should be careful how they light brush, wood and grass now-a-days. One spark might ruin a whole section, and particularly on prairie grounds.

**A FABLE.**—A young man once picked up a sovereign lying on the road. Ever afterwards as he was passing along, he kept his eyes fixed steadily upon the ground, in hopes of finding another. And in the course of a long life he did pick up, at different times, a goodly number of coins, gold and silver. But, all these years, while he was looking for it, he saw not that the heavens were bright above him. He never once allowed his eyes to look up from the mud and filth in which he sought the treasure; and when he died—a rich old man—he only knew this fair earth of ours as a dusty road in which to pick up money as you walk along.

**IT** will be remembered that last winter, Wells, Fargo & Co.'s express was robbed of \$30,000, a gold, belonging to the government, which they were carrying from Dubuque to New York. These men named Ayer, King and White, were arrested on charge of having committed the robbery. They have just been tried in Detroit, and convicted of the charge.

**IT**—“Farmers Boy” in Barren county, Ky., advertises for a wife. If she wants to know what to eat, let her make his bread and butter, And go to meeting without silk, To make a “show and splatter.”

He'd like to know if it would hurt, He needs to take up stitches; Or sew the buttons on his shirt, Or make a pair of breeches.

**REPUBLICAN MEETING.**—The friends of Free Kansas and FREEMONT, are requested to turn out to a Republican meeting

**A T MELMORE,** On Saturday Even'g, August 2.

The meeting will be addressed by

**JUDGE HORN**, and

**J. C. LEE**, Esq.—A Republican club will be formed, and arrangements made for going to the Grand Rally at Fremont, Aug. 6, with the big team !

**DANIEL RICHARDS**, D. W. EASTMAN, Committee. H. J. CROUSE,

**Roll Out!**

We wish to see our town alive with the notes of busy preparation, on next Wednesday before sunrise, to go to Fremont.

How about that big team, Oh ye Bloomers?

**ED** Our amiable friend Joes Smith, Esq., of Republic, is out in a long article denouncing Rev. C. HARTLEY. Now we are not mixed up in that little difficulty, but our private opinion is that Mr. Hartley is as well qualified to judge what the prophecies of a gentleman and a Minister of the Gospel are, as is Mr. Smith. It will scarcely be questioned that as a true gentleman and a man of honor and integrity, Mr. Hartley will compete advantageously to himself with any of his accusers.

These facts lead us to the opinion that friend Smith had better stick to his law, and let Mr. Hartley pursue the line of duty which his conscience marks out for him, unmolested by impudent censure or dictation, and we think this is the prevailing opinion.

It is scarcely two years since the issue of the first No. of the Gem, and it has already a circulation of 5,000, which speaks favorably for the success of this lady in her enterprise.

The Union School House is progressing finely, and will be pushed forward with vigor. When it is finished, it will be one of the finest edifices in the city. It is situated in a pleasant place, and will show good advantage.

Ho! for the West!—On Wednesday last a large number of stage horses passed through our city, going west. Now is the time for them to go, for in a few weeks the screams of the iron horse will be heard in every direction, gliding over the prairies, when they will have to emigrate still farther west across the Rocky Mountains, into Oregon.

**THE MINERS ARE FOR HIM.**—The Lake Superior Journal, of the 25th, has just heard of the nomination of Fremant, and is in ecstacies. The miners of Lake Superior will help swell his 90,000 majority in Michigan.

**BURLINGS AND BROOKS.**—These illustrious demagogues, who have so distinguished themselves in Kansas, are now stamping for Buchanan and Breckinridge, Stringfellow in Virginia, and Atchinson of Missouri in his own State, while Judge LeCompton and U. S. Marshall Jones are still holding their offices and commissions issued by President Pierce.

**SHANNON REMOVED.**—Atchinson, & Co.'s.
